

## DT Economy Model Service Crane with Manual Rotation

*A lighter simplified, lower cost alternative to our full featured ET series cranes. The booms are manually telescopic from 6 ft. to 10 ft. All have 3 position manual boom elevating spring counterbalanced for quick one hand raising and lowering.*

Engineered for safe one man operation, these economical service cranes operate directly from the truck's battery. The built in 12 volt winch is specifically designed and manufactured by Venturo as a lifting winch. Winch power unit has a 12 volt motor with heavy duty self locking bronze worm gear system and built in brake to prevent coasting. Meets ANSI B30.5.

### OPERATING AND SAFETY FEATURES

- ◆ Spring counterbalanced manual boom elevation combines with...
- ◆ Telescopic boom allows for on-site maximum working reach as well as loading and unloading of virtually any truck body.
- ◆ Manual Rotation 360° with 8 position base lock to hold mast firmly in position while in use and while traveling.
- ◆ Venturo winch is equipped with 50' of 3/16" diameter wire rope to meet ANSI B30.5.
- ◆ Capacity:
  - 6' - 1200 lbs.
  - 8' - 900 lbs.
  - 10' - 700 lbs.
- ◆ Each boom position clearly marked for capacity.
- ◆ Swivel snatch block with safety hook is standard allowing operation with either single or double part line.
- ◆ Fast winch line speed allows the operator to complete the job quickly and efficiently.
- ◆ Load hook tie down eye built into base.
- ◆ Removable pendant control (15 ft.) prevents unauthorized operation.
- ◆ Master disconnect switch.

### ACCESSORIES

- ◆ Pedestal mountings for increased working heights.
- ◆ Outriggers for all style bodies.
- ◆ Quick disconnect battery cable plug and socket.
