LANDSCAPE BODY

EXCLUSIVE
bolt-together design
featuring stainless
steel fasteners

Shown with
optional cab
guard and
REV-Pac

The Landscape Body is designed to serve professional landscapers. Reading's Landscape Body features a flexible bolt-together design with stainless steel fasteners. This permits easy installation of landscape sides to Reading's standard heavy duty platforms and easy replacement should a part get damaged. Constructed of 12 and 14 gauge two-sided A-60 galvanized steel, the landscape sides are further protected from rust and corrosion by Reading's exclusive Lectro-Life® immersion priming. A black powder coat finish forms a tough, but attractive outer shell that further enhances the layers of protection already applied to the steel.

Standard Features

Side Access Door (curbside):

- Reinforced 14 gauge, two sided, A-60 galvanized steel, heavy duty, full opening door
- 2 heavy duty hinges on door
- Draw latch holds door in closed position
- Positive door holder keeps door in fully open position
- 51" clear door opening width

Rear Cargo Doors:

- 14 gauge, two sided, A60 galvanized steel, perforated and reinforced
- Two heavy duty hinges on each door
- Positive door holder keeps door in fully open position
- Draw latch holds upper rear doors in closed position
- Single spring loaded latch secures rear doors to tailgate

Tailgate:

- 4-way double hinged lower tailgate, fully welded and reinforced
- Converts easily to all purpose platform or flat dump
- 12 gauge, two sided, A60 galvanized steel
- Supported by vinyl coated chain easily adjustable into "key hole slot"
- Height - 14"
- 4-way tailgate design allows for manual metering of material

Rust Protection:

- Lectro Life® immersion priming ensures complete coverage for maximum protection
- Polyester powder coat painting (oven baked) offers a black, high gloss, chip resistant finish on sides, bulkhead & tailgate
- 3 Year limited warranty

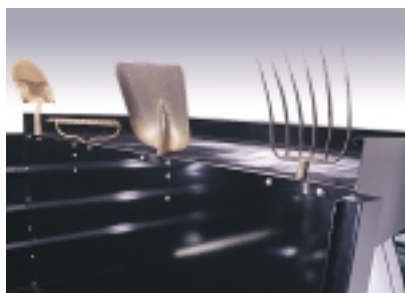

Bolt-Together Sides:

- An exclusive feature
- Permits ease of installation and part replacement
- Stainless steel fasteners will not rust

Sides & Bulkhead:

- Sides are die formed and crimped, and made of heavy duty 12 gauge, two sided, A-60 galvanized steel
- Heavy duty front bulkhead is 12 gauge, two sided A-60 galvanized steel. Bulkhead posts are designed to carry shovels, brooms or other long handled items
- Formed vertical posts are 14 gauge, two sided A-60 galvanized steel

options

Cab Guard :

- 16 ga. two sided A60 galvanized steel
- Designed to carry wheelbarrows or other large items

Curbside Door Deletion:

- Curbside door may be deleted for credit

REV-Pac :

- Auxiliary storage featuring full bed width compartment with two shelves and four swivel hooks
- Made of two sided A60 galvanized steel
- For complete information on this product, please see separate literature, or Reading's website (www.readingbody.com)

Rear Double Doors :

- Reinforced 14-gauge steel full opening solid rear double door module with removable header.
- Three heavy-duty hinges on each door
- Clampite™ 2-point full height positive handle engagement on each door.

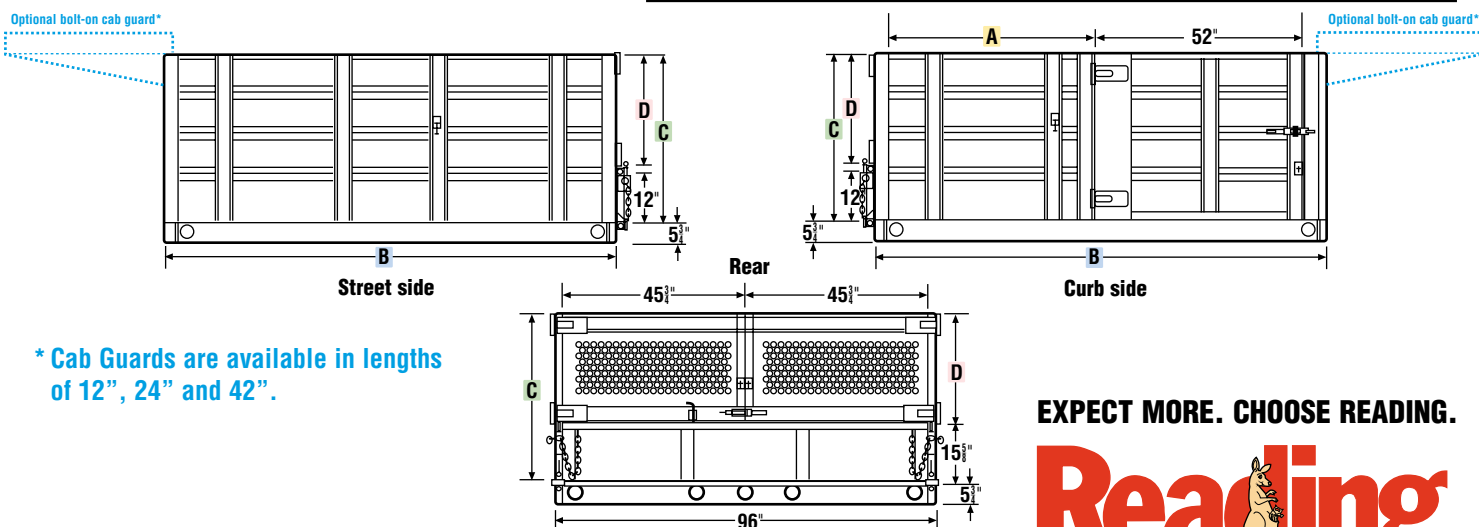

dimensions & specifications

Landscape Sides are designed for installation on Reading's heavy duty platform body. Heavy duty platforms feature:

- 7 gauge smooth steel floor
- 11 gauge formed steel crossmembers and side rails
- Structural steel long sills
- Extra deep reinforced pockets for increased side stability
- 12 stage automotive electrocathodic immersion priming
- Two component high gloss black urethane top coat
- Entire understructure completely undercoated
